PROFESSIONAL SUMMARY

Junior PHP / Laravel Developer with 6 months of professional internship experience and hands-on expertise in building database-driven web applications. Proficient in PHP, Laravel, MySQL, JavaScript, HTML5, CSS3, Bootstrap, and Tailwind CSS, with practical knowledge of MVC architecture, Eloquent ORM, CRUD operations, authentication, middleware, migrations, Blade templating, database integration, and responsive web development. Experienced in building Laravel-based e-commerce and employee management applications, developing admin panels, integrating relational databases, and troubleshooting application and UI issues.

TECHNICAL SKILLS

Backend: PHP, Laravel, MySQL, RESTful APIs, Eloquent ORM

Frontend: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, Responsive Web Design

Laravel Core: MVC Architecture, Blade Engine, CRUD Operations, Authentication, Middleware, Migrations, Seeders, Validation, Routing, Relationships

Database & Tools: MySQL, SQL, Database Design, Joins, CRUD Queries, Relational Data, Git, GitHub, VS Code, Chrome DevTools, Figma, WordPress, API Integration, Debugging

PROFESSIONAL EXPERIENCE

Web Developer Intern | GT Connect (Sep 2025 – Mar 2026)

- Engineered responsive web interfaces using HTML5, CSS3, JavaScript, and Bootstrap, ensuring consistent layouts across desktop and mobile devices.
- Integrated PHP and MySQL for database-driven web functionality and dynamic content handling.
- Optimized existing UI layouts by identifying and resolving responsiveness, styling, and cross-browser rendering issues.
- Assisted in integrating and maintaining web application features across frontend and backend components.
- Troubleshot application issues using Chrome DevTools, debugging techniques, and systematic code analysis.
- Collaborated with developers during feature updates, bug resolution, testing, and maintenance workflows using Git/GitHub-based version control practices.

PROJECTS

1. Mini Eco – Laravel E-Commerce Application (Laravel | PHP | MySQL | Bootstrap | Blade | Eloquent ORM)

- Architected a database-driven boutique e-commerce application using Laravel MVC architecture, Blade Engine, PHP, and MySQL.
- Engineered an admin panel for managing products, categories, banners, featured products, and website content through structured CRUD workflows.
- Integrated Eloquent ORM relationships to manage interconnected product and category data efficiently.
- Configured Laravel migrations, models, controllers, validation, routing, and database relationships for scalable application structure.
- Built dynamic product management workflows covering create, read, update, delete, image upload, validation, and database persistence.
- Designed responsive storefront interfaces using Bootstrap, with reusable Blade components and database-driven content.

2. Employee Management System (EMS) (Laravel | PHP | MySQL | Blade | Eloquent ORM)

- Engineered an employee management platform using Laravel MVC, PHP, MySQL, Blade, and Eloquent ORM.
- Built complete employee CRUD workflows for creating, viewing, updating, and deleting employee records.
- Integrated authentication and protected application areas using Laravel routing and middleware concepts.
- Applied server-side form validation, request handling, routing, controllers, and database operations to maintain application integrity.

3. E-Commerce Website (PHP | MySQL | HTML5 | CSS3 | JavaScript)

- Engineered a database-driven e-commerce application using core PHP, MySQL, HTML5, CSS3, and JavaScript.
- Built dynamic product listing and shopping cart functionality with database-backed product data.
- Integrated PHP with MySQL using structured database operations for managing and retrieving application data.
- Applied modular PHP development practices for separating application logic, database operations, and presentation components.

CERTIFICATION & EDUCATION

- **Professional Certification:** 6-Month Professional Certification in Web Development — WCSC
- **Academic Degree:** Bachelor of Arts (B.A. Programme) — Currently Pursuing, 1st Year
- **Background Education:** Class XII (CBSE) | Class X (CBSE)
- **Core Languages:** Hindi | English
